[c4rogers@telus.net](mailto:c4rogers@telus.net) or 403-327-2073

*What Every Musician Needs to Know about the Body* explores how your body is designed to move, and how it moves when you make music on any instrument. You will learn how your anatomical structures impact your movement, technique and performance. You will learn to perform naturally with your body, not against it. This will help enhance performance, promote optimal technique, and avoid playing-related pain and injury.

Michèle Wheatley-Brown is the first licensed Andover Educator in Canada west of Newfoundland. She is an active teacher, adjudicator, and examiner with the Royal Conservatory of Music and Music Achievement Program in Canada and the United States. She performs both as a solo and collaborative pianist with a wide variety of instrumentalists, vocalists, and choirs.

She holds an M.A. (Music), Graduate Certificate in Piano Pedagogy Research from the University of Ottawa and B.Mus. and B. Ed. degrees from the University of Toronto.
